

RAHAT SECURITIES LIMITED
FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2025

Independent Auditor's Report to the Members of Rahat Securities Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the annexed financial statements of **Rahat Securities Limited (the Company)**, which comprise the statement of financial position as at June 30, 2025, and the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including material accounting policy information and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2025 and of the profit, total comprehensive income, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants* as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the Directors' Report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance

with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business;
- d) no zakat was deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980);
- e) the company was in compliance with the requirements of Section 78 of the Securities Act, 2015 and Section 62 of the Futures Market Act, 2016 and the relevant requirements of Securities Brokers (Licensing and Operations) Regulations, 2016 as at the date on which the statement of financial position was prepared;
- f) the company was in compliance with the relevant requirements of the Futures Brokers (Licensing and Operations) Regulations, 2018 as at the date on which the statement of financial position was prepared.

The engagement partner on the audit resulting in this independent auditor's report is Muhammad Daoud.

CHIEF EXECUTIVE

DIRECTOR

RAHAT SECURITIES LIMITED
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2025

1 COMPANY AND ITS OPERATION

- 1.1 The company is a public company incorporated in Pakistan under the repealed Companies Ordinance, 1984 (now Companies Act, 2017). The registered office of the company is situated in room 617-618 Lahore Stock Exchange Building, 19 Khayaban-e-Aiwan-Iqbal Road, Lahore.

The company is Trading Right Entitlement Certificate (TREC) Holder of Pakistan Stock Exchange and has also acquired membership of Pakistan Merchantile Exchange Limited. The core activity of the Company is financial consultancy, brokerage, underwriting, portfolio management/acquisition of securities and securities research.

2 BASIS OF PREPARATION

2.1 STATEMENT OF COMPLIANCE

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Islamic Financial Accounting Standards (IFASs) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRSs or IFASs, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 ACCOUNTING CONVENTION

These financial statements have been prepared under the historical cost convention except as stated hereafter in the relevant accounting policies. Further accrual basis of accounting is followed in the preparation of these financial statements except for cash flow information.

2.3 FUNCTIONAL AND PRESENTATION CURRENCY

The financial statements are presented in Pakistani Rupee, which is the company's functional and presentation currency.

2.4 JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with approved accounting standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the company's accounting policies. Estimates and judgments are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period, or in the period of revision and future periods if the revision affects both current and future periods.

Judgments and estimates made by management that may have a significant risk of material adjustments to the financial statements in subsequent years are as follows:

- Useful lives, depreciation methods and residual values of property and equipment
- Useful lives, amortization methods and residual values of intangible assets
- Provision for doubtful account receivables/ECLs
- Contingencies
- Provision for current and deferred taxation

3 CHANGE IN ACCOUNTING STANDARDS, INTERPRETATIONS AND AMENDMENTS TO PUBLISHED APPROVED ACCOUNTING AND REPORTING STANDARDS:

3.1 New accounting standards, amendments and IFRS interpretations that are effective for the year ended June 30,

The following standards, amendments and interpretations are effective for the year. These standards, amendments and interpretations are either not relevant to the Company's operations or are not expected to have significant impact on the Company's financial statements other than certain additional disclosures.

	<u>Effective from accounting period beginning on or after:</u>
Amendments to IFRS 16 'Leases' -Clarification on how seller-lessee subsequently measures sale and leaseback transactions	January 01, 2024
Amendments to IAS 1 'Presentation of Financial Statements' - Classification of liabilities as current or non-current along with Non-current liabilities with Covenants	January 01, 2024
Amendments to IAS 7 'Statement of Cash Flows' and 'IFRS 7 'Financial Instruments: Disclosures' - Supplier Finance Arrangements	January 01, 2024

3.2 New accounting standards, amendments and interpretations that are either not yet effective or relevant to the company

The following amendments are effective for accounting periods, beginning on or after the date mentioned against each of them. These amendments are either not relevant to the Company's operations or are not expected to have significant impact on the Company's unconsolidated financial statements other than certain additional disclosures.

	<u>Effective date (annual periods beginning on or after)</u>
Amendments to IAS 21 'The Effects of Changes in Foreign Exchange Rates' - Clarification on how entity accounts when there is long term lack of Exchangeability	January 01, 2025
IFRS 17 - Insurance Contracts (including the June 2020 and December 2021 Amendments to IFRS 17)	January 1, 2026
Amendments IFRS 9 'Financial Instruments' and IFRS 7 'Financial instruments disclosures' - Classification and measurement of financial instruments	January 1, 2026
Annual Improvements to IFRS Accounting Standards (related to IFRS 1, IFRS 7, IFRS 9, IFRS 10 and IAS 7	January 1, 2026
Amendments IFRS 9 'Financial Instruments' and IFRS 7 'Financial Instruments: Disclosures' - Contracts Referencing Nature-dependent	January 1, 2026

Other than the aforesaid amendments, the IASB has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan:

IFRS 1 - First Time Adoption of International Financial Reporting Standards
IFRS 18 - Presentation and Disclosures in Financial Statements
IFRS 19 - Subsidiaries without Public Accountability: Disclosures

4 MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policies are consistently applied in the preparation of these financial statements are the same as those applied in earlier periods presented in these financial statements except as stated in note 3 to the financial statements:

4.1 PROPERTY AND EQUIPMENT

Items of property and equipment other than land, leasehold improvements and capital work in progress are measured at cost less accumulated depreciation and accumulated impairments (if any). Land and capital work in progress is stated at cost less accumulated impairments.

Depreciation is charged on reducing balance method at the rates mentioned in the relevant notes to the financial statements. Depreciation on additions is charged for the day in which an asset is ready to use while no depreciation is charged for the day in which an asset is disposed off. Normal repair and maintenance is charged to revenue as and when incurred, while major renewals and replacements are capitalized.

Gains and losses on disposal of assets, if any, are included in profit or loss.

The useful lives, residual values and depreciation method are reviewed on a regular basis. The effect of any changes in estimate is accounted for on a prospective basis. Further, the key assumptions used to determine the fair value of property and equipment are provided in relevant note to the financial statements.

4.2 INTANGIBLE ASSETS

Intangible assets with infinite useful life are stated at cost less impairment, if any. Intangible assets with finite useful life are stated at cost less accumulated amortization and accumulated impairment losses, if any. The carrying amount is reviewed at each reporting date to assess whether it is in excess of its recoverable amount, and where carrying value exceeds estimated recoverable amount, it is written down to estimated recoverable amount.

4.2.1 Membership card and offices

This is stated at cost less impairment, if any. The carrying amount is reviewed at each reporting date to assess whether it is in excess of its recoverable amount, and where the carrying value exceeds estimated recoverable amount, it is written down to its estimated recoverable amount.

4.2.2 Computer Software

Expenditure incurred to acquire identifiable computer software and having probable economic benefits exceeding the cost beyond one year, is recognized as an intangible asset. Such expenditure includes the purchase cost of software (license fee) and related overhead cost.

Costs associated with maintaining computer software programs are recognized as an expense when incurred.

Costs which enhance or extend the performance of computer software beyond its original specification and useful life is recognized as capital improvement and added to the original cost of the software.

Computer software and license costs are stated at cost less accumulated amortization and any identified impairment loss and amortized is charged using straight line method.

Amortization is charged when asset is available for use until asset is disposed off.

4.3 Financial instruments

4.3.1 Financial assets

The Company classifies its financial assets at amortized cost, fair value through other comprehensive income or fair value through profit or loss on the basis of the Company's business model for managing the financial assets and the contractual cash flow characteristics of the financial asset.

a) Financial assets at amortized cost

Financial assets at amortized cost are held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Interest income from these financial assets, impairment losses, foreign exchange gains and losses, and gain or loss arising on derecognition are recognized directly in profit or loss.

b) Financial assets at fair value through other comprehensive income

Financial assets at fair value through other comprehensive income are held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

c) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are those financial assets which are either designated in this category or not classified in any of the other categories. A gain or loss on debt investment that is subsequently measured at fair value through profit or loss is recognized in profit or loss in the period in which it arises.

Financial assets are initially measured at cost, which is the fair value of the consideration given and received respectively. These financial assets and liabilities are subsequently remeasured to fair value, amortized cost or cost as the case may be. Any gain or loss on the recognition and de-recognition of the financial assets and liabilities is included in the profit or loss for the period in which it arises.

Equity instrument financial assets/mutual funds are measured at fair value initially and subsequent to initial recognition. Changes in fair value of these financial assets are normally recognized in profit or loss. Dividends from such investments continue to be recognized in profit or loss when the Company's right to receive payment is established. Where an election is made to present fair value gains and losses on equity instruments in other comprehensive income there is no subsequent reclassification of fair value gains and losses to profit or loss following the derecognition of the investment.

Financial assets are derecognized when the rights to receive cash flows from the assets have expired or have been transferred and the Company has transferred substantially all risks and rewards of ownership. Assets or liabilities that are not contractual in nature and that are created as a result of statutory requirements imposed by the Government are not the financial instruments of the Company.

The Company assesses on a forward looking basis the expected credit losses associated with its financial assets carried at amortized cost and fair value through other comprehensive income. The impairment methodology applied depends on whether there has been a significant increase in credit risk. For trade receivables, the Company applies the simplified approach, which requires expected lifetime losses to be recognized from initial recognition of the receivables. The Company recognizes in profit or loss, as an impairment gain or loss, the amount of expected credit losses (or reversal) that is required to adjust the loss allowance at the reporting date.

For other financial assets, the company applies the IFRS 9 'General Approach' to measuring expected credit losses whereby the company measures the loss allowance for a financial instrument at an amount equal to the lifetime expected credit losses if the credit risk on that financial instrument has increased significantly since initial recognition. However, if at the reporting date, the credit risk on a financial instrument has not increased significantly since initial recognition, the company measures the loss allowance for that financial instrument at an amount equal to 12-month expected credit losses.

4.3.2 Financial liabilities

All financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities at amortized costs are initially measured at fair value minus transaction costs. Financial liabilities at fair value through profit or loss are initially recognized at fair value and transaction costs are expensed in the profit or loss.

Financial liabilities, other than those at fair value through profit or loss, are subsequently measured at amortized cost using the effective yield method.

A financial liability is derecognized when the obligation under the liability is discharged, cancelled or expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange and modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in respective carrying amounts is recognized in the profit or loss.

4.3.3 Off-setting of financial assets and financial liabilities

A financial asset and a financial liability is offset and the net amount is reported in the financial statements if the Company has a legally enforceable right to set-off the transaction and also intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

4.4 DERIVATIVE FINANCIAL INSTRUMENTS

Derivatives are initially recognized at fair value. Any directly attributable transaction costs are recognized in the statement of profit or loss as incurred. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are generally recognized in statement of profit or loss.

4.5 TRADE DEBTS AND OTHER RECEIVABLES

Trade debts and other receivables are recognized initially at the amount of consideration that is unconditional, unless they contain significant financing component in which case such are recognized at fair value. The Company holds the trade debts with the objective of collecting the contractual cash flows and therefore measures the trade debts subsequently at amortized cost using the effective interest method. Impairment of trade debts and other receivables is described in relevant note to the financial statements.

4.6 CASH AND CASH EQUIVALENTS

Cash and cash equivalents comprise of cash balances and call deposits. For the purpose of statement of cash flows, cash and cash equivalents comprise cash in hand, bank balances and running finances from financial institutions.

4.7 SHARE CAPITAL

Ordinary shares are classified as equity and recognized at their face value. Incremental costs directly attributable to the issue of new shares are shown in equity as a deduction, net of tax, if any.

4.8 BORROWINGS

Borrowings are recorded initially at fair value, net of transaction cost incurred.

Borrowing costs are recognized as an expense in the period in which these are incurred except to the extent of borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset. Such borrowing costs, if any, are capitalized as part of the cost of that qualifying asset.

Covenants that the Company is required to comply with, on or before the end of the reporting period, are considered in classifying loan arrangements with covenants as current or non-current. Covenants that the Company is required to comply with after the reporting period do not affect the classification at the reporting date.

4.9 TAXATION

Current

Provision for current taxation is based on taxable income at the applicable rates of taxation after taking into account tax credits, brought forward losses, accelerated depreciation allowances and any minimum limits imposed by the taxation laws.

Deferred

Deferred tax is recognized using the liability method on all temporary differences between the carrying amounts of assets and liabilities for the financial reporting purposes and the amounts used for taxation purposes.

Deferred tax asset is recognized for all the deductible temporary differences only to the extent that it is probable that future taxable profits will be available against which the asset may be utilized. Deferred tax asset is reduced to the extent that it is no longer probable that the related tax benefit will be realized. Deferred tax liabilities are recognized for all the taxable temporary differences.

Handwritten signature

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on the tax rates that have been enacted or substantially enacted by the reporting date.

Deferred tax is charged or credited in the profit or loss, except in the case of items credited or charged to comprehensive income or equity, in which case it is included in comprehensive income or equity.

Levies

Tax charged under Income Tax Ordinance, 2001 which is not based on taxable income or any amount paid / payable in excess of the calculation based on taxable income or any minimum tax which is not adjustable against future income tax liability is classified as levy in the statement of profit or loss and other comprehensive income.

4.10 TRADE AND OTHER PAYABLES

Trade and other payables are recognized initially at cost, which is the fair value of the consideration to be paid, in the future for goods and services received and subsequently measured at amortized cost.

4.11 PROVISIONS

Provisions are recognized when the company has a legal or constructive obligation as a result of past events and it is probable that an out flow of economic benefits will be required to settle the obligation and a reliable estimate of the amount can be made. However, provisions are reviewed at each reporting date and adjusted to reflect the current best estimate.

Contingent assets are not recognized and are also not disclosed unless an inflow of economic benefits is probable and contingent liabilities are not recognized and are disclosed unless the probability of an outflow of resources embodying economic benefits is remote.

4.12 FOREIGN CURRENCY TRANSACTIONS AND TRANSLATION

Transactions denominated in foreign currencies are translated to Pakistan Rupees at the exchanges rate ruling at the date of transaction.

Monetary assets and liabilities in foreign currencies at reporting date are translated into Pakistan Rupees at exchange rates ruling on that date. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognized in the profit or loss.

4.13 IMPAIRMENT OF NON-FINANCIAL ASSETS

The carrying amounts of non-financial assets other than inventories, are assessed at each reporting date to ascertain whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated. An impairment loss is recognized as an expense in the profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost to sell and value in use.

Value in use is ascertained through discounting of the estimated future cash flows using a discount rate that reflects current market assessment of the time value of money and the risk specific to the assets. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash generating units).

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized. Prior impairments of non-financial assets (other than goodwill) are reviewed for possible reversal at each reporting date.

4.14 RIGHT-OF-USE ASSETS AND RELATED LIABILITY

Right of use assets are initially measured at cost being the present value of lease payments, initial direct costs, any lease payments made at or before the commencement of the lease as reduced by any incentives received. These are subsequently measured at cost less accumulated depreciation and accumulated impairment losses, if any.

Depreciation is charged on reducing balance method for all assets as mentioned in the relevant note to the financial statements. Where the ownership of the asset transfers to the Company at the end of the lease term or if the cost of the asset reflects that the Company will exercise the purchase option, depreciation is charged over the useful life of respective asset.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Company's incremental borrowing rate.

Lease payments include fixed payments, variable lease payments that are based on an index or a rate amounts expected to be payable by the lessee under residual value guarantees, the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option, less any lease incentives receivable. The extension and termination options are incorporated in determination of lease term only when the Company is reasonably certain to exercise these options.

The lease liability is subsequently measured at amortized cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in fixed lease payments or an index or rate, change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. The corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in the statement of profit or loss if the carrying amount of right-of-use asset has been reduced to zero.

4.15 DIVIDEND DISTRIBUTIONS AND APPORTIONMENTS

Dividend distributions to the Company's shareholders and appropriations to reserves are recognized in the period in which these are approved.

4.16 IJARAH CONTRACTS

Ijarah in which a significant portion of the risks and rewards of ownership are retained by the Muji's (lessor) are classified as operating Ijarah. Payments made during the year are charged to the statement of profit or loss on a straight-line basis over the period of the Ijarah in accordance with Islamic Financial Accounting Standard-2.

4.17 REVENUE RECOGNITION

The company recognizes revenue when it satisfies the performance obligations. The following table provides information about the nature and timing of the satisfaction of performance obligations in contracts with customers, including significant payment terms, and the related revenue recognition policies.

Type of service	Nature and timing of satisfaction of performance obligations including significant payment terms	Revenue recognition policies
Brokerage income	Performance obligation is satisfied when the services are rendered.	Revenue is recognized at a point in time when the provision of service is completed.
Advisory and consultancy income	Performance obligation is satisfied over the period of contract. Customer is invoiced at the time of satisfaction of each performance obligation under the contract.	Revenue is recognized over the period when the customer utilizes advisory and consultancy services.

Dividend income	Performance obligation is satisfied when the right to receive the dividend is established.	Revenue is recognized at a point in time when the right to receive dividend is established.
Income on continuous funding system transactions and bank deposits	Performance obligation is satisfied on a time proportionate basis that takes into account the effective yield.	Revenue is recognized at a point in time as it accrues.
Mark-up income from investment in marginal trading system	Performance obligation is satisfied when it accrues using the effective interest method.	Revenue is recognized over the period when the customer utilizes exposure provided under marginal trading system.
Return on term finance certificates	Performance obligation is satisfied when it accrues using the effective interest method.	Revenue is recognized at a point in time as it accrues.

4.18 BASIC AND DILUTED EARNINGS PER SHARE

The Company presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any.

4.19 RELATED PARTY TRANSACTIONS

Transactions and contracts with the related parties are carried out at an arm's length price determined in accordance with comparable uncontrolled price method except permitted by the regulatory authorities or reason disclosed in relevant note to the financial statements, if any. Transactions with related parties have been disclosed in the relevant notes to the financial statements.

4.20 TRADE DATE ACCOUNTING

All "regular way" purchases and sales of financial assets are recognized on the trade date, i.e. the date on which the Company commits to purchase or sell an asset. Regular way purchases or sales of financial assets are those, the contract for which requires delivery of assets within the time frame generally established by regulation or convention in the market.

34 FINANCIAL RISK MANAGEMENT

34.1 The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (interest/mark-up rate risk and price risk). The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance. Overall, risks arising from the company's financial assets and liabilities are limited. The Company consistently manages its exposure to financial risk without any material change from previous periods in the manner described in notes below.

The Board of Directors has overall responsibility for the establishment and oversight of Company's risk management framework. All treasury related transactions are carried out within the parameters of these policies.

a) **Credit Risk**

Credit risk is the risk that one party to a financial instrument will fail to discharge an obligation and cause the other party to incur a financial loss, without taking into account the fair value of any collateral. Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economics, political or other conditions. Concentrations of credit risk indicate the relative sensitivity of the Company's performance to developments affecting a particular industry. The objectives of credit risk management is to put in place sound credit approval processes for informed risk-taking and procedures for effective risk identification, monitoring and measurement.

Exposure to Credit Risk and Credit Risk Management

Credit risk of the Company arises from deposits with banks and financial institutions, trade debts, short term loans, deposits, receivable / payable against sale of securities and other receivables etc. The carrying amount of financial assets represents the maximum credit exposure. To reduce the exposure to credit risk, the Company has developed its own risk management policies and guidelines whereby clients are provided trading limits according to their net worth and proper margins are collected and maintained from the clients. The management continuously monitors the credit exposure towards the clients and makes provision against those balances considered doubtful of recovery. The Company's management, as part of risk management policies and guidelines, reviews clients' financial position, considers past experience, obtain authorized approvals and arrange for necessary collaterals in the form of equity securities to reduce credit risks and other factors. Credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit ratings. Further, all transactions in listed securities are settled using National Clearing Company of Pakistan Limited, being the central clearing company of the country. The risk of default in such transactions is considered minimal, as delivery of security is guaranteed by the Stock Exchange.

The carrying amount of financial assets represent the maximum credit exposure at the reporting date, which are detailed as follows:

Note	2025 Rupees	2024 Rupees
Long term deposits	2,320,000	2,320,000
Trade debts	20,421,639	3,437,457
Trade deposits	4,146,318	1,659,690
Accrued interest	119,465	13,691
Bank balances	288,200,231	106,945,786
	<u>315,207,653</u>	<u>114,376,624</u>

34.1.1 The maximum exposure to credit risk for trade debts is due from local clients and the aging of trade debts at the reporting date was:

	2025 Rupees	2024 Rupees
Up to 1 month	15,408,585	1,351,242
1 to 6 months	5,180,975	985,050
More than 6 months	-	5,928,818
	<u>20,589,560</u>	<u>8,265,110</u>
Less: Provision for doubtful debt	<u>(167,921)</u>	<u>(4,827,653)</u>
	<u>20,421,639</u>	<u>3,437,457</u>

Based on the past experience the management believes that no further allowance for doubtful debts is necessary in respect of unprovided past due amounts as there are reasonable grounds to believe that the amounts will be recovered in short course of time and there is adequate securities against these balances.

34.1.2 **Concentration of credit risk**

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate exposure is significant in relation to the Company's total exposure. The Company's portfolio of financial instruments is broadly diversified and transactions are entered into with diverse credit-worthy counterparties thereby mitigating any significant concentrations of credit risk.

Geographically there is no concentration of credit risk.

The credit quality of Company's cash and cash equivalents held with various commercial banks and financial institutions is assessed with reference to external credit ratings as follows:

[Handwritten signature]

	Rating		Rating Agency	2025	2024
	Short Term	Long Term		Rupees	Rupees
Allied Bank Limited	A1+	AAA	PACRA	5,410	5,515

Askari Bank Limited	A1+	AA+	PACRA	31,544	31,544
				<u>288,200,231</u>	<u>106,945,786</u>

b) Liquidity Risk

Liquidity risk is the risk that the company will not be able to meet its financial obligations as they fall due. The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation. The following are the contractual maturities of financial liabilities, including expected interest payments and excluding the impact of netting agreements:

	2025			
	Carrying Amount	Contractual Cash Flows	Maturity Up to One Year	Maturity After One Year
	-----R u p e e s-----			
Deposits, accrued liabilities and advances	648,933	648,933	648,933	-
Trade and other payables	298,871,230	298,871,230	298,871,230	-
	<u>299,520,163</u>	<u>299,520,163</u>	<u>299,520,163</u>	<u>-</u>

	2024			
	Carrying Amount	Contractual Cash Flows	Maturity Up to One Year	Maturity After One Year
	-----R u p e e s-----			
Deposits, accrued liabilities and advances	927,581	927,581	927,581	-
Trade and other payables	104,863,688	104,863,688	104,863,688	-
	<u>105,791,269</u>	<u>105,791,269</u>	<u>105,791,269</u>	<u>-</u>

Liquidity Risk Management

The company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the company's reputation.

The company monitors cash flow requirements and produces cash flow projections for the short and long term. Typically, the company ensures that it has sufficient cash on demand to meet expected operational cash flows, including serving of financial obligations. This includes maintenance of liquidity ratios. Further, the company has the support of its sponsors in respect of any liquidity shortfalls.

c) Market Risk

Market risk is the risk that changes in market prices such as foreign exchange rates, interest rates and equity prices will affect the company's net profit or the fair value of its financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing return.

i) Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of the financial instruments will fluctuate because of changes in foreign exchange rates.

Exposure to foreign currency risk

The company may be exposed to currency risk on trade debts or other financial assets or liabilities that are denominated in a currency other than the respective functional currency of the company.

Foreign currency risk management

The company manage foreign currency risk through due monitoring of the exchange rate, adjusting net exposure and obtaining forward covers when necessary, The company does not enter into forward exchange contracts as at reporting date.

However, the company, at present, is not exposed to currency risk as all transactions are carried out in Pak Rupee.

ii) Price Risk

Price risk represents the risk that the fair value of a financial instrument will fluctuate because of changes in the market prices (other than those arising from interest/mark up rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all or similar financial instruments traded in the market. Presently, daily stock market fluctuation is controlled by government authorities with cap and floor. The restriction of floor prices reduces the volatility of prices of equity securities and the chances of market crash at any moment. The company manages price risk by monitoring the exposure in quoted securities and implementing the strict discipline in internal risk management and investment policies, which includes disposing of its own equity investment and collateral held before it led the company to incur significant mark-to-market and credit losses. The carrying value of investments subject to price risk is based on quoted market prices as of the reporting date. Market prices are subject to fluctuation and consequently the amount realized in the subsequent sale of an investment may significantly differ from the reported market value. Fluctuation in the market price of a security may result from perceived changes in the underlying economic characteristics of the investee, the relative price of alternative investments and general market conditions. Furthermore, the amount realized in the sale of a particular security may be affected by the relative quantity of the security being sold.

The company's portfolio of short term investments is broadly diversified so as to mitigate the significant risk of decline in prices of securities in particular sectors of the market.

Sensitivity Analysis

The table below summarizes Company's equity price risk as of year end and shows the effects of a hypothetical 10% increase and a 10% decrease in market prices of investments through profit or loss as at the year end reporting dates. The selected hypothetical change does not reflect what could be considered to be the best or worst case scenarios. Indeed, results could be worse because of the nature of equity markets and the aforementioned concentrations existing in Company's equity investment portfolio.

	Fair Value	Hypothetical Price Change	Estimated Fair Value After Hypothetical Change In Price	Hypothetical Increase / (Decrease) in Share Holders' Equity
June 30, 2025	197,709,817	10% increase	217,480,798	19,770,982
		10% decrease	177,938,835	(19,770,982)
June 30, 2024	101,364,354	10% increase	111,500,789	10,136,435
		10% decrease	91,227,919	(10,136,435)

iii) Interest Rate Risk

Interest / mark-up rate risk is the risk that value of a financial instrument or future cash flows of a financial instrument will fluctuate due to changes in the market interest / mark-up rates. Sensitivity to interest / mark up rate risk arises from mismatches of financial assets and liabilities that mature or re-price in a given period. The company manages these mismatches through risk management strategies where significant changes in gap position can be adjusted.

The effective interest / mark-up rates in respect of financial instruments are mentioned in respective notes to the financial statements.

Sensitivity Analysis

The company is exposed to interest rate risk in respect of its variable rate instruments. A 100 basis points increase in variable interest rates would have following affect. A 100 basis points decrease in variable interest rate would have had an equal but opposite impact on loss. This sensitivity analysis is based on assumption that all variables, with the exception of interest rates, remain unchanged.

2025		2024	
Financial Asset	Financial Liability	Financial Asset	Financial Liability

Non- derivative financial instruments

Variable rate instruments:

Deposit with NCCPL	3,100,000	-	400,000	-
Cash and bank balances	-	-	-	-
	3,100,000	-	400,000	-

Cash flow sensitivity analysis for variable rate instruments

A 100 basis points increase in variable interest rates at the reporting date would have increased/ (decreased) profit for the year by the amount shown below. This sensitivity analysis is based on assumption that all variables, with the exception of interest rates, remain unchanged.

Profit or loss (100 bps)				
2025		2024		
Increase	Decrease			
		Increase	Decrease	
Rupees				
31,000	(31,000)	4,000	(4,000)	

The Company manages these mismatches through risk management strategies changes in gap position can be adjusted. The long term and short term borrowing and obligation under finance lease has variable rate pricing that is mostly depended on Karachi Inter Bank Offer Rate ("KIBOR") as indicative in respective notes.

34.2 Fair value of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Company is a going concern without any intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

The estimated fair value of all financial assets and liabilities is considered not significantly different from book values as the items are either short - term in nature or periodically reprised.

International Financial Reporting Standard 13, 'Financial Instruments : Disclosure' requires the company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
- inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2); and
- inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The level in the fair value hierarchy within which the fair value measurement is categorized in its entirety shall be determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety.

The assets and liabilities that are measured at fair value on recurring and non-recurring basis have been disclosed in the relevant notes to the financial statements, if any.

The table below analyses financial instruments measured at fair value at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorized:

[Handwritten signature]

	2025		
	Level 1	Level 2	Level 3
	-----Rupees-----		
Financial assets			
At fair value			
Short term investment in listed securities (on recurring basis)	197,709,817	-	-
Long term investment (on recurring basis)	-	-	-
	<u>197,709,817</u>	<u>-</u>	<u>-</u>

	2024		
	Level 1	Level 2	Level 3
	-----Rupees-----		
Financial assets			
At fair value			
Short term investment in listed securities (on recurring basis)	95,752,880	-	-
Long term investment (on recurring basis)	5,611,474	-	-
	<u>101,364,354</u>	<u>-</u>	<u>-</u>

34.2.1 Capital risk management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure.

In order to maintain or adjust the capital structure, the Company may issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Company manages its capital risk by monitoring its debt levels and liquid assets and keeping in view future investment requirements and expectation of the shareholders. Debt is calculated as total borrowings:

	2025 Rupees	2024 Rupees
Total borrowings	-	-
Total equity	<u>271,758,772</u>	<u>186,500,408</u>
Total Capital	<u>271,758,772</u>	<u>186,500,408</u>
Gearing Ratio	<u>0%</u>	<u>0%</u>

35 OPERATING SEGMENT

35.1 These financial statements have been prepared on the basis of a single reportable segment which is consistent with the internal reporting used by the chief operating decision-maker. The chief operating decision-maker is responsible for allocating resources and assessing performance of the operating segments.

35.2 All non-current assets of the Company as at June 30, 2025 are located in Pakistan.

36 Liquid Capital Balance

The liquid capital balance has been prepared on the basis of Securities Brokers (Licensing and Operations) Regulations, 2016 (The Regulations) issued by Securities and Exchange Commission of Pakistan.

Sr. #	Head of Account	Value in Pak Rupees	Hair Cut / Adjustments	Net Adjusted Value	Value in Pak Rupees	Hair Cut / Adjustments	Net Adjusted Value
